### EVERY DWELLING IN NEWMARKET MUST HAVE RAID SHELTER ROOM

There should be no doubt in the minds of Newmarket people now, if, indeed, any has existed since Pearl Harbor, regarding the grave threat of an enemy attack.

This point was emphasized again this week when it was decided, at a meeting of Chief Air Raid Warden Austin J. McCaffrey with Newmarket's senior air raid wardens, to make certain that every home in the town is provided with a suitable shelter room.

Official blanks were distributed to the wardens for the recording of information about each dwelling. Each warden will also receive maps of his district. Assistants have been named and these charts will assist them in case they should be compelled to assume charge of a district.

It was also decided at the meeting that sand will be sent to sections of Newmarket which failed to receive it in previous deliveries.

### SLIGHT DROP IN UNIVERSITY ENROLLMENT

Dr. Everett B. Sackett, registrar, announced that the undergraduate enrollment at the University of New Hampshire at the end of the first week of the second semester was only 2.7 per cent below the same period last year.

The registration for the semester, which was started two weeks earlier than usual, was 1751, compared with 1799 on Feb. 10, 1941.

The largest decrease was reported in the College of Agriculture, which has more men of draft age and is supplying farm labor.

### Newmarket Girl Is Prize Writer

MURIEL HALEY

Muriel Haley of Newmarket won first prize in a recent writing competition at McIntosh College in Dover. Unlike the usual English theme which depends for its success mainly on good writing alone, Miss Haley's assignment called for straight thinking, some research, clarity, and attractive presentation.

The competition is staged in conjunction with vocational guidance in an effort to find all of one's capabilities so that he or she may secure more interesting and lucrative employment through the college employment bureau. The assignment was a newspaper story of a recent honor bestowed upon D. S. McIntosh, when he was made New England member of the board of governors of the American Association of Commercial Colleges.

### This Newspaper To Be Tabloid

Last week, the readers of this newspaper were promised news concerning plans for a revolutionary change in the publication as another step of progress.

### YOUTH HURT AS AUTO NEARLY DROPS IN RIVER

Walter Malek of Newmarket was seriously injured at about 2 o'clock Sunday morning when an automobile in which he was riding with two other youths crashed through a fence at the North Main street bridge in Newmarket and would have landed in the Lamprey River except that a large tree held the car back.

Malek was pinned in the back seat and was taken in an unconscious condition to Exeter Hospital. Walter Goudreau, who owned the machine and is said to have been driving at the time of the accident, and Arthur Mongeon were the other occupants.

They told Officer John Valliere, who investigated, that the machine went out of control when one wheel got off the edge of the highway.

### COSTLY COAL STILL CLAIMED BY LANGMUIR

Replying to the Newmarket School Board regarding its coal purchases, John D. Langmuir, executive director of the N. H. Federation of Taxpayers' Associations, wrote a letter published in the Manchester Union.

### 'CITIZEN' HIT BY SELECTMAN ON FUEL DATA

In a letter to the editor of this newspaper, Theodore Filion, a member of the Newmarket Board of Selectmen, disputes the figures provided by a "reputable citizen" in last week's issue regarding coal purchases by the town.

Mr. Filion's letter refers to the "Editor's Note," which followed the School Board's communication to the Manchester Union Leader, replying to charges by John D. Langmuir, executive director of the N. H. Federation of Taxpayers' Associations, that the School Board has been paying more than it should for school fuel.

The letter from Mr. Filion, addressed to Guy Langley, the editor, reads as follows:

"Dear Sir:  
"In regards to the article in the Newmarket News printed Jan. 30, 1942, by your paper in regards to the purchase of fuel in the Town of Newmarket. I would like to enlighten you to the facts of the situation.

"I do not know who this yellow liver Japanese of a reputable citizen who is masquerading as a white man going around trying to stab somebody in the back and so ignorant to the knowledge of our town affairs is, that gave you that information.

"We have two coal dealers in the Town of Newmarket. Mr. Soper is not a coal dealer and is not assessed or taxed for a coal business. he is Taxed for Ice, Wood & Coal.

"The town of Newmarket purchased for all it department last year about \$1530.00 of fuel from R. H. Filion Co., the owner and only controller of that firm, and not \$1735.00 as the Article in your paper quotes. From the H. R. Haines Co. \$1684.22 about and not \$533.29 as was quoted. From the L. P. Filion Oil Co. which is owned and controlled by L. P. Filion about

tive to school purchases of coal warrants an answer which we will gladly give.

Our information concerning the coal used by the public schools was obtained from the two coal dealers who sell the coal to these schools. We were informed by both dealers that they were selling the same grade of coal to the schools. We could do no more than assume that this information was correct, since the dealers certainly should know.

For that reason, we did not believe it necessary to refer to the School Board, although, we would have been glad to do so if the opportunity had arisen.

It would now appear likely, however, that, through a misunderstanding, we were not given a complete picture and that, therefore, different qualities of coal actually are being sold.

May we respectfully point out to the three members of the School Board that, even if their statement be entirely correct, this in no way alters the essential fact which we stressed in our publicity? This essential fact was that the Newmarket School Board is paying far more for its coal than it needs to spend.

The letter from the three members would appear to confirm that the prices per ton given in our report were correct. On this basis, the schools last November were paying \$10 a ton for New River coal, which they were buying in carload lots, 145 tons in a year.

That price—and the letter from the members would seem to agree—is almost \$2 a ton more than is needed to buy a wholly satisfactory grade of soft coal.

It may be argued that the high grade of New River coal now used with such satisfaction cannot be bought for any less money. In our computations, however, we used a figure of \$3 a ton at the mines for our soft coal quality, and we have been informed by the larger users of soft coal in New Hampshire and elsewhere that a \$3 a ton quality is very good. In fact, most cities and towns in this state now purchase soft coal of a quality below the \$3 level.

Newmarket is using a New River coal. That comes from West Virginia mines, and must come by boat to New England ports. It is called, therefore, a tidewater coal. The extreme shortage of boats has forced up the cost of boat shipments so sharply that coal shipped by tidewater to Newmarket now costs about 70-cents a ton or more than coal shipped all-rail from Pennsylvania mines.

The School Board is paying, therefore, not only for coal; it is also paying an excess for freight. Since the bituminous coal from Pennsylvania is reported by users to be entirely as

## Edwin Chapman Dead In Laconia

Edwin W. Chapman, a native of Newmarket, is dead in Laconia, where he had resided for the past 20 years.

For a number of years, Mr. Chapman was in the wallpaper business in Lynn, Mass., where he was a member of the Odd Fellows and Knights of Pythias.

satisfactory as the tidewater grades, this excess 70 cents for freight is not necessary.

Furthermore, the School Board is buying in quantities sufficient to permit purchase from a wholesaler—yet it is buying from a retailer, at very close to retail prices. As a result it is paying far too much for its coal.

As we stated in our published report, the Newmarket schools are spending in excess of \$250 too much for their coal; they could undoubtedly buy an equally satisfactory grade of all-rail coal for that much less.

The saving of \$250 every year, would buy a lot of new school books for the school children.

**Hampton Buccaneers Invade The N. H. S. Basketball Courts**

Saturday evening, Feb. 7, Coach Sulloway and his high riding, swash-buckling, Class B leaders will be out to strengthen their record, which includes only a single loss in 12 games. N.H.S. with a 6 won and 6 lost record has little to lose to Hampton but Hampton needs this game to put itself into a certain tournament bid at Durham. The local quintet thus will be out to topple the appercart and squeeze out some enjoyment in stopping a champion. The first meeting between Hampton and Newmarket was not decided until the final minute and was won by Hampton 32-27. Coach Kingsman and the boys will put up a stiff opposition for this battle. Only two more home games remain.

**Granges To Mark 50th Anniversary**

East Rockingham Pomona Grange and the subordinate granges of Hampton Falls, Brentwood, Stratham, Kensington and Newfields will observe their 50th anniversary this year. East Rockingham Pomona Grange is making tentative plans to have its observance in the Fall.

Lyman of Exeter. Patuccoway Grange of Nottingham has this year held its 50th anniversary, and one of its 50-year members, Edward F. Gerrish, has received a 50-year membership certificate.

MATTRESSES

Mattresses are very hard to judge correctly by appearance or by description. A beautiful tick may cover an inferior mattress or an unattractive tick a high-grade mattress.

An innerspring mattress may have a large number of springs and be an inferior mattress if the springs are small or of poor quality. A mattress may have a comparatively small number of springs and be high-grade if the springs are of the proper size and quality to correspond with the number used. Nor does the price always properly reflect the quality.

We take pride in the reputation of our mattresses and intend to maintain this reputation and the good-will of our customers by continuing to tell the truth about them.

War. Still, a fellow is lucky to have a little of it. That's the way with advertising.

As disturbing as our abundance of advertising may seem, however, you've undoubtedly noticed that few Durham establishments are guilty of contributing to the situation. Nor has any rich "friend of the paper" left us an endowment lately.

The genius who may eventually perfect perpetual motion may also, perhaps, devise a newspaper that can operate successfully without advertising.

We repeat that we're never elated when a subscriber parts company with us, but, on the other hand, greater would be our flow of tears if one of our large advertisers should suddenly lose faith in us.

When you run across some other newspaper that publishes more Durham news in a single issue than the Durham Free Press, kindly let us know, and we will give you a subscription free of charge.
