## Epping and Newmarket Would Share Facilities

School superintendent Thayer Wade presented a proposal for a sharing of facilities and teachers between Epping and Newmarket High Schools at the Monday evening meeting of the Parent Teacher Association.

Although there were only thirty-five persons present, considerable discussion developed as to the feasibility of the plan. Questions directed to Superintendent Wade came from the panel consisting of Mrs. Beatrice Geoffrion, Mrs. Betty Philbrick and Arthur Beauchesne, and from the floor.

The plan as drawn up by Superintendent Wade calls for Epping to house business, home economics and language classes for the two towns and for

Newmarket to provide facilities for academic, science and shop classes. A new eight to ten room building at an estimated preliminary cost of \$160,000.00 would be built in Epping, which would release the present Epping High School to ease classroom over-crowding at the junior high level.

Wade said that the additional transportation costs of an estimated \$3,000.00 for each town would be offset by savings in teachers' salaries of \$10,000.00 in each community.

The sharing of facilities, supplies and teachers would allow more comprehensive courses to be taught and would allow the hiring of a full time guidance counselor.

Superintendent Wade added that this proposal would not be binding and could be set up on a trial basis with either town able to pull out at any time.

During the discussion Wade reported that Newmarket High School was one of the schools included in a testing program by the Princeton University Educational Testing Service given to sophomores throughout the state to test general college ability. Newmarket ranked eighth out of the seventy-seven schools tested. Newmarket also ranked eighth in reading ability.

Before the school discussion, the Newmarket Parent Teachers Association celebrated National PTA Founder's Day with a special message written by Mrs. John E. Hayes and read by Mrs.

Mrs. Gordon Rodrigues, chairman of the Newmarket Heart Fund Drive, assisted by Mrs. Ralph Willey and Mrs. John Bukowski, co-chairmen, announce the following solicitors have volunteered their services to help with the Newmarket drive:

The key figures for raising funds for the National Heart Drive are volunteers who work without fanfare or recognition, often without public thanks.

The largest portion of the funds raised each year for the American Heart Association are used for the support of scientific research and each succeeding year research breaks down more of the barriers to knowledge.

Heart Sunday has been earmarked for Feb. 26 throughout the nation; Newmarkets volunteers will solicit their areas on Feb. 25 and 26 unless it storms in which case they will solicit when the weather permits.

When your neighbor knocks, won't you open your heart and your door?

## Democratic Comm. Elects New Officers

Officers of the Newmarket Democratic Committee are Arthur Beauchesne, chairman, Eli Grandmason, secretary; John Twardus, treasurer.

At the meeting of the town Democratic Committee held Sunday in the Court Room, the following people announced their intentions to file for town office:

Town clerk, Robert Rousseau; tax collector, Jennie Loiselle; cemetery trustee, Roy Kent; selectmen, Nicholas Zuk; town treasurer, Robert Labranche.

### CORRECTION

In last week's story on sidewalk construction, the distance on Main street to be resurfaced should have read from the Ben Franklin store to the Catholic Church, instead of the Community Church.

## TAX APPEALS SET FOR MAY

Due to the many inquiries which were reaching the town selectmen as to when the tax commissioners would be handling the tax appeals, said selectmen were in touch with the state office, and received word that the three tax commission-

ers would arrive in Newmarket sometime in May to process the appeals.

A date early in April was given to the selectmen as the time the assessors would be Newmarket to handle the 40 or so rechecks.

## Main Street Musings

BY THE INQUIRER

OUR APOLOGIES to all parties concerned re: picture switching. Miss Judy Warnock, DAR winner from Oyster River, was pictured as Miss Judy Jo Johnson, fiancée of Midshipman Thomas French of Lee. Someone goofed in the rush of the last minute deadline and for this we are truly sorry.

WITH TOWN and school budgets and proposals the main topics of discussion along Main street, the TIMES welcomes individual opinions as expressed through our Letters to the Editor column. Letters must not be too lengthy and must be signed. THE TIMES expects to publish both warrants as soon as they are completed.

WE WON'T MENTION his name here, but a local friend of ours was attempting to wash his car one day last week and the more water he applied the thicker the ice became on his car. When the ice built up to a thickness of about one-eighth of an inch, he threw up his hands, drove to Bud Priest's fast car wash and had his troubles dissolved for ninety-nine cents. Smart boy! And Green Stamps, too!

THE GRAPEVINE TELLS us that another bowling match is in the works. The challenges have been made and preparations are underway. More on this later.

**Second Notice**

Notice is hereby given to the voters and general public of the Town of Newmarket that there will be a public hearing of the budgets of the town and the school district and articles in the warrant on February 21, Tuesday at 7 p.m. in the Town Hall.

Charles E. Dearborn,  
Chairman,  
Budget Committee.

Feb. 11 Alfred Lebeau of Lee complained to the Police Department, that sometime before 11 p.m. on Feb. 10, someone

backed into his station wagon while it was parked in the Gallant parking lot, damaging the rear fender and breaking the tail and back-up lights.

Feb. 11 Albert D. Gilbert of 9 Lincoln avenue, operating a town truck, was proceeding down Central street salting the road when he hit a ridge of ice causing him to slip into a car owned by Henry H. Pelletier of 33 Ham street, while backing out of Chapel street onto Main street, hit a car operated by Warren J. Tanner of Sleepy Hollow Trailer Park, damaging the rear right door of the Tanner car.

## OYSTER RIVER PTA MEETS AT NEW MAST WAY SCHOOL

Highlight of the Oyster River PTA monthly meeting held recently at the new Mast Way school in Lee, was a folk dance exhibition presented by Mrs. Jean Schultz's 6th grade students. The four dances: American "Four Gents Star", German "Puttjenter", English "Newcastle" and Scottish "Eightsome Reel" were picked by the social studies students as the most typical of the national character of each particular country. Dancers were Bill Byers, Brian Carroll, Donald Congdon, Gwen Dewey, Kevin Donahue, Peter Fickett, Ronald Grant, Carol Haine, James Heald, Janet Kelley, Neal Kennedy, George Laney, Rona Maynard, Marsha McLaren, Susan Meader, Susan Metcalf, Christina Nielson, David Olson, Susan Pearson, Billy Pineo, Marsha Printy, Marlene Schroeder, Charles Schultz, Denise Shames, Julia Underwood,

Miss Marden will now compete in the state regional contest in Durham.

**Year Book Pictures Taken**  
Year Book pictures were taken Friday of the Athletic teams and the senior superlatives.

Randy Wheeler, Susan Young and James Zoller.

Following the dance program PTA president Robert Owens introduced Franklin Heald, legislator from Durham and member of the House Education committee, who gave a report on the four education bills before the legislature. Following an analysis of the bills, Heald recommended citizens contact their own town representatives for further information or expressions of their own opinions.

PTA members were reminded that the O.R. Teachers Guild is presenting the hilarious comedy "January Thaw", March 4 and 5 with O.R. teachers making up the cast. Proceeds will go towards a scholarship for a deserving O.R. student.

Mr. Jesse James, state 4-H leader and Miss Diantha Bacheller, UNH freshman, and O.R. graduate, gave an interesting report of the 1960 White House Conference on Youth and Children which they both attended.

George Pasichuke, principal of O.R. high school and Robert Brunelle, school superintendent, discussed their study report on high school needs and their final recommendation for a new high school in the O.R. district.

Questions from the floor were answered as to the overcrowded conditions in the present school and the need for long range planning.

Principal Pasichuke invited every parent or interested citizen to tour the present high

school facilities and examine the plant at the next meeting of the PTA. This meeting will be called High School Night and will be entirely devoted to the high school problem. Parents, taxpayers and other interested persons are urged to attend. It will be held in the Oyster River auditorium in Durham, March 7 at 8 p.m.

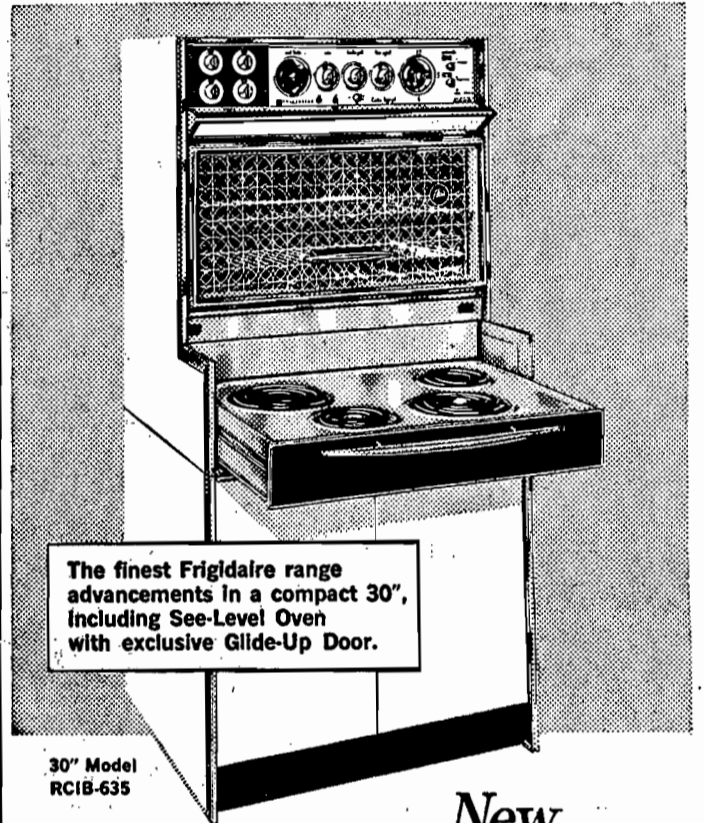

Refreshments were served by Mrs. Fred Robinson, Mrs. Tom

Mahoney and Mrs. Richard Merritt, under the supervision of Mrs. Alexander Amell, hospitality chairman.

March 25, a Community Dance will be held for the benefit of the O.R. Dental Clinic under the auspices of the O.R. PTA, with Mrs. William Olson chairman, assisted by Mrs. William Henry.

## Local F.O.E. Receives 'Net Gain' Banner

Last Week, Feb. 8, a very interesting meeting of the Fraternal Order of Eagles was held at the Eagles' hall, conducted by President Harold Dawes. Over one-hundred members were present to witness this impressive ceremony. The regular business meeting was cancelled, after which the local ritual team took over in

order to initiate five new candidates recently accepted.

They were Walter Condon, Eugene Carrier, Albert Charest, Robert Jablonski and Walter Davis.

All officers of the ritual team did a wonderful job in their respective assignments and the whole performance was well received by all.

After the initiation, four visitors from Derry, N. H., were introduced. They were: Frank Smith, state Aerie president; Clarence McDuffie, past worthy president; Henry LaPorte, also a past worthy president and David Wilson, social club delegate.

State president Frank Smith, representing the Grand Aerie, presented a 'net gain' banner to the Newmarket Aerie for having met a 'net gain' in membership in 1959-60.

Honored and receiving a citation were Romeo Lemieux, membership chairman; Wilfred St. Pierre, secretary; Armand Lepage, membership security chair; and John A. Schanda, junior past worthy president.

State president Frank Smith made a short speech congratulating all members for their cooperation in F.O.E. As he put it, "Eagledom is showing the way in many fields of endeavor, including world service, national affairs, health and welfare, civic

service, youth guidance and recreation."

Before the meeting adjourned the F.O.E. code of 36.75 was drawn out and to the delight of all Eagles in the hall, the lucky winner was a new candidate just initiated a few minutes before, Eugene Carrier.

After the meeting refreshments were served by the committee in charge and everyone had a good time.

The next meeting will be held on Feb. 22 at 8 p.m. and the new F.O.E. code will start at (10) plus. Remember, in order to win this code, we must be present at the meeting.

Therefore, let's be faithful to attend every meeting regularly from now on.

Next was the shop of Timothy Murray used by him for the tailoring business. It was moved away seventy years since and used as a dwelling. The shop is not on the map, but the residence of Deacon Murray, back of the present bank building, is on the map.

Next came Capt. Barber's house and barn where now stands the post office building. Then comes a store where B. F. Haley's clothing manufacturer is. Next was James Chapman's house, now owned by Miss Sarah A. Doe; B. Mead's house came next, where is now C. B. Mathes' store.

John Smart had a shoe shop on the corner where Deacon Mathes' stone house now is, with a tan yard in the rear. Beyond C. H. Harvey's residence stood Reuben and Benjamin French's houses.

The house where Mrs. Sarah Smith resides is not on the map, although it was built then. In the rear of Mrs. Brennan's house, C. Smart had a blacksmith shop.

Over the creek on the hill was a house where Maj. Young lived. On the left stood a house in which Adm. William Caverly lived. Where Mrs. Clara Richardson lives, a store near Maj. Young's house and Dea. Paul Chapman's store, where Stephen Hersom now lives, are not on the map.

*Author's Note:* For the benefit of the present generation we will bring some of the above references up to date. The A. J. Nichols house was occupied by Carl F. Brackett. The house occupied by Joy and Barber was moved to Elm street to make room for the library building.

The brick store occupied by Felix Clement is now the automobile accessory store of George N. Willey. Silver's Hotel is now Hotel Willey. J. C. Boardman's store is now Adelaide Rousseau's.

Durgin Brothers' stores was replaced by the brick building now occupied by Leo J. Turcotte with lodge halls above.

The bank forty years ago was in the building now occupied by G. Marelli. The post office building is now occupied by Mrs. L. P. Garneau and the A&P store. B. F. Haley's clothing manufacturer is now occupied on the ground floor by J. A. Brisson.

The Sarah A. Doe house is now occupied by the Olympia Lunch. C. B. Mathes' store is now occupied by Mrs. Malo and True E. Smith. Deacon Mathes' stone house is now owned and occupied by Fred Malo. The Mrs. Sarah Smith and Mrs. Brennan houses are one Prescott street.

### More About the Mills

The cost of construction of No. One Mill was \$11,197.94. The looms with one reed and two shuttles cost the company \$90 each.

When No. One Mill was finished it was considered very modern in construction and equipment. A six-hundred pound bell was placed in the cupola—"three lightning rods were run from the ridge-pole to the water and extended ten feet above the ridge-pole . . .

the flukes were plated with silver."

In obtaining an insurance policy the directors stated their ample protection against fire as follows:—"We keep a good watch. We have a forcing pump delivering from the great wheel located in the run-way with a cistern in the upper-room. This pump may be struck into gear for raising water, the upright cylinder of which has a hose and pipe attached and the water can be raised and may be directed instantly to fire in any part of the room. We have a full company of enginemen, a tub engine, a line of hose, axes and about one hundred good leather buckets."

A diary faithfully kept by an employee of the company from 1830 to 1836 shows how dependent the company was upon weather conditions, and how closely the weather conditions were observed and recorded. The mills then were run by water power.

"Monday, Apr. 18, 1831. S. A. Chase was at the dam at Nottingham. Found that some person had put plank on the run-over in the place of the flash boards taken off last fall, and the water had risen over them one foot seven and one-half inches, being thirteen and a half inches below the level of the dam. One of the planks of the run-over was removed the whole length, leaving the flash boards one foot high.

"Tuesday, Apr. 19, 1831. Josiah Wiggin went to Nottingham with Stone and Smith. They graveled the dam where it had washed off from the upper side, by the freshet.

"May 14. S. A. Chase and Wheatland at the pond . . . on their way from Northwood found the water three and one-half inches over the run-over. John Haines went up and put on six inches more length of flash boards at the pond.

"June 9. The saw mill has been kept running all this spring until this evening. When the mill shut down the water was one inch below the top of the dam. Nine inch flash boards were put on.

"Nov. 22. Wind N.E., a severe storm. Forty minutes past 8 A.M. a frame house belonging to Gilman standing near John Haines', blew down. The storm was so violent that great apprehensions were entertained that the gondola had met with some accident. Dispatched Daniel Palmer and Méserve by the bayside as far as Mathes' Neck to ascertain where she was. They returned in the afternoon having seen nothing of her. Job Durgin and E. P. Smith went to Portsmouth by way of Piscataqua Bridge and found the gondola safe at Portsmouth.

"Dec. 17. Violent wind and snow flying so it is difficult to see a rod ahead. Wiggin and Churchill at Portsmouth brought up four tons of Lehigh coal, fifteen barrels of flour and some shingles. B. Wheatland down to the Stevens' farm where the Packet and Gondola are frozen in.

"Jan. 27, 1832. At six o'clock this morning it stood at nineteen and one-half degrees below, then rapidly rose till ten degrees above. The river smoked exceedingly."

## Elementary School Activities

### Grade One

The first grade is learning about evaporation. They left some water in a jar in the room and observed that it slowly disappeared. They also heated water to see it evaporate quickly.

They have started to learn subtraction in arithmetic.

Also they have been learning how simple machines such as the wheel, the inclined plane, the pulley and the lever help us.

Faith's group finished their

reading primer *Day In and Day Out*. Now they are reading another primer entitled *Fun With Dick and Jane*.

Cynthia Holt has joined the class from Virginia.

The first grade enjoyed the Valentine Party put on by the room mothers. They wish to thank them. Each child decorated a large envelope and had it taped to their desk for their Valentine mail box.

### Grade Two

In numbers we are learning to add and subtract two place

numbers. We have begun addition involving carrying.

Almost all the class is looking in the hospital door of our spelling word hospital. We have only a few patients this week.

Mr. Leodore Boisvert, the father of one of our second graders, visited the second grade to help them better understand their study of communication. The children enjoyed talking on the telephone and listening to telegraph messages being sent.

The boys and girls in second grade have written Valentine stories to their parents to show them how much they are appreciated on Valentine's Day.

The name, Second Grade Reporter was given to the news-

paper recently completed by the second graders. It is presently being displayed in the hall for the children of other classes to read.

Our bulletin boards are decorated with pictures portraying old and new forms of transportation.

### Grade Three

On Valentine's Day the third grade enjoyed exchanging cards, dancing and eating.

In Social Studies and Science they have been studying cloth and the comparison of clothes of today and yesteryear. In connection with this, Mrs. Wright showed slides of Williamsburg, Va. — colonial furniture and costumes.

They are making posters on the type of clothes we should wear in the different seasons.

Susan Clark and Janet Szak attended every class without missing one.

Joyce Stevens will be entering the hospital during vacation. The third graders wish her a speedy recovery.

### Grade Four

The class officers for the month of February are as follows: Room Manager, Philip Mitchell; Librarians, Susan St. Armour and Roger Sewall.

In Social Studies, we are studying about the continent of Africa. The children are presently making reports on individual countries.

On Tuesday, Feb. 14, Valentine's Day, the fourth grade held a party in the classroom. Refreshments were brought in by the children and were also served by the children. Following the serving of refreshments, a square dance took place.

# Letters to the Editor

February 14, 1961

TO THE EDITOR:

The Newmarket Town Warrant will contain an article worded as follows, "To see if the town will raise and appropriate two thousand dollars for the establishment of a capital reserve fund for the financing of all or part of the cost of a new fire truck."

The reason this article is being proposed is because of the age of our present equipment which consists of one 31 year old Ford used for brush and grass fires, a 27 year old Chevrolet now used for ladder and hose, one 20 year old Seagrave truck used as a pumper and hose truck and one eight year old Chevrolet used as a tank truck.

All four of these trucks are in excellent condition at present but we feel that within another eight to ten years a new piece of equipment will have to be purchased to replace one of these units.

We also feel that we should now prepare with proper planning for such a replacement, not only to be able to meet such an emergency as it arises but also to save the town and taxpayers a considerable amount of money, borrowed money represents an additional indebtedness in the form of interest payments. The interest on the sum of two thousand dollars a year for a seven year period, at the rate of 3 %, would amount to approximately \$1,718.00. Were the town to borrow \$14,000.00 for the purchase of a new truck and repay

over a four year period, the interest alone on that sum would be approximately \$2,100.00.

We of the fire department feel that THE NEWMARKET TIMES has done much in acquainting and educating our citizens with the needs and functions of our town departments, and we are certain you will continue to enlighten the public through this medium.

Very truly yours,  
ROBERT S. KELLER,  
Chief,

Nineteen members were present at the February meeting of the Lee Fire department held at the fire station Thursday evening.

Chief Stevens reported a call on February 8 to the Wallace Thompson apartment at the old South Lee post office. Ted Turner, who was first on the scene, stated the children upon returning from school, found the oil burner flooded and oil covering the floor. One of the children called the first person he could think of; the sheriff of Rockingham County who in turn called the Newmarket Fire Chief and he in turn called the Lee Fire department. The fire potential was great, but fortunately, due to the boy's quick action, a tragedy was averted.

RESULT OF DEER RUNNING DOGS

Pictured above is Les Scott, a New Hampshire Game Warden, with the body of a doe which had been recently killed by dogs. As can be seen, the dogs not only killed the doe but three unborn fawns as well. This deer was run down on a local lake by three or four dogs, which were not captured. The dogs did not kill the deer outright but mauled it so badly it had to be destroyed by Officer Scott.

BOY SCOUT NEWS

by John Willey

The Boy Scout meeting was not held last Thursday night due to the ham supper which was sponsored by the scouts for the benefit of the Youth Center. The Girl Scouts also helped by selling tickets and waiting on tables.

It was most gratifying to see so many people turn out to make this supper a huge success.

A great deal of credit goes to Sgt. and Mrs. Kenneth Eickholt, Mrs. Earl Hodgdon, Sr. and Earl Hodgdon, Jr., for the time and work in planning the supper and also in soliciting donations.

We would also like to extend our sincere thanks to the Fraternal Order of Eagles for the use of their hall, to all the merchants for their generous donations, to the Girl Scouts and their leaders, mothers of both the Girl and Boy Scouts for the delicious pies they baked, and to everyone who helped to make the supper a great success. The money made from this supper has been deposited in the New Market National Bank in a building fund for the new Youth Center.

It was impossible for us to return some of the pie plates as they had no names, so if you did not get yours back please call Mrs. Rose Eickholt at OL 9-3878, as she has a stack of them and she will be very happy to bring them to you.

HB38—Authorizes the Fish and Game Director to set up appropriate rules and regulations for bonding license agents.

HB50—Redefines the conditions under which a nonresident member of the armed forces of the United States may procure a fishing or hunting license at reduced rates to require that the service man in question be actually quartered in the state as well as on active duty.

HB66—Enables the nonresident who owns property in this state assessed at more than \$2,000 to buy fishing and hunting licenses at resident rates.

Joe Dixx's Sport Corner

By Richard Schanda

My old Uncle Flub is in trouble again. This time he chose to match wits with a Maine game warden.

This particular warden had given my Uncle Flub a ticket last winter and when old Flub was hauled in to court, this warden told the court that this fisherman was a fish hog and should be punished. Punished he was. A \$50 fine topped the list. Old Flub swore revenge. He thought he had his chance last Saturday up on Great East Lake.

Flub has an ice shanty made out of a converted outhouse and some practical joker kept hanging a "Men's Rest Room" sign above the door. Now old Flub just could not get any rest as someone was always barging

in. Flub, of course, blamed the warden.

One dark Friday night, Flub went out on the ice and moved his house back three feet and exposed the hole in the ice. He then built a snow bridge over the hole and retired to his shanty to await his first visitor.

At about 7:30 a.m. old Flub was awakened by a roar that would make a black bear's hair stand straight up. With a big rum smile, old Flub opened the door and looked straight into the eyes of his ex-pal—the warden, who was neck deep in frosty water and busily writing out a ticket. The warden's face was as red as the rising sun and witnesses claim that the warden looked like an old time seal hunter chasing a big walrus across the lake.

Listed below are the new hunting laws being worked over up in Concord. Keep an eye on SB25 and SB29.

SB25 would drop the so-called two year stamp law for the time being, and up the price of the license to include the \$1 charged for the stamp.

SB29 would allow the F&G

department to put out poison bait for porcupine. As many animals would eat a poisoned porcupine, fishers and pine martins fox and bear would also suffer from this law.

Western states tried this poisoned bait deal for coyote and just about killed off all the local animal life. It seems that the poison did not disapeate as the officials thought it would and remained deadly for years.

HB35—Sets up a Board of Assessment consisting of the Commissioner of Agriculture, Fish and Game Director and Deputy Attorney General, to hear claims and determine the amount of damage to be assessed against Fish and Game Funds to compensate owners of domestic livestock killed or wounded by hunters. Passed House, amended to include all hunters instead of just deer hunters.

HB39—Provides that all fish, birds, or animals illegally imported into this state shall be seized and forfeited. Passed the House.

HB44—Provides that any protected game, fish, and birds illegally possessed shall be forfeited and disposed of by the conservation officer at the discretion of the director. Passed the House.

SB25—Does away with the existing stamp on certain categories of fish and game licenses, but leave the total cost of purchasing each just what it is now by making the dollar now charged for each stamp a part of the price of the license. Takes effect August 1.

SB29—Allows the director of Fish and Game or his agent to use sodium arsenite in the
